## **AT A GLANCE: 2014 Infiniti QX60**

The 2014 Infiniti QX60 (formerly known as the Infiniti JX) continues to shake up the status quo with their innovative 7-passenger/3-row luxury crossover and now offered in a new QX60 FWD Model. A fresh, bold alternative to the many flavours currently dominating the luxury crossover segment, the Infiniti QX60 is designed to excel in the areas that luxury crossover buyers desire most – interior flexibility and roominess, safety, and advanced hospitality features. The QX60 offers real 3-row utility, plus all the premium features, performance and innovations that Infiniti has become known for worldwide.

The 2014 QX60 also offers a vibrant symphony of both luxury and style, highlighted by the Infiniti design language direction that initiated with the Essence concept – as well as a suite of personal luxury accommodations.

Along with its standout styling and craftsmanship, the breakthrough QX60 design offers excellent legroom in all three rows, and ample cargo room behind 3<sup>rd</sup> row. In addition, an innovative multi-mode middle seat design provides entry to the 3<sup>rd</sup> row without removing the 2<sup>nd</sup> row child seat.

The QX60 also continues Infiniti's tradition of developing world's first technologies with Backup Collision Intervention (BCI), to Blind Spot Intervention™ (BSI) system. With this technology, when the transmission is in reverse, the QX60 will help the driver detect crossing vehicles and objects behind the QX60, and, if necessary, the system can automatically engage the brakes to help avoid a collision.

Among the other advanced standard or available technology found throughout the QX60 are Infiniti Connection telematics system with Google Calendar™, and Drive Zone/Speed Alert; Around View™ Monitor (AVM) with Moving Object Detection (MOD); Lane Departure Warning (LDW) and Lane Departure Prevention (LDP); Blind Spot Intervention™ (BSI) system; Intelligent Cruise Control (Full-Speed Range); Distance Control Assist (DCA); Intelligent Brake Assist (IBA) with Forward Collision Warning (FCW); Active Trace Control; Front Pre-Crash Seat Belts; and a Bose® Cabin Surround® 15-speaker sound system with digital 5.1-channel decoding and an Acoustic Waveguide subwoofer.

The QX60's interior design mirrors the seductive style of the exterior. Key design features include: the signature driver-oriented cockpit, finishers and satin pieces offering similar shapes and section, thin chrome accents, and an interior colour palette that provides an elegant colour harmony – Wheat, Graphite or Java leather appointments with Kasane Washi or available Maple trim accents.

Offered with Intelligent All-Wheel Drive, the QX60 addresses the growing desire among luxury crossover drivers to have both responsive performance and good fuel efficiency.

The standard 3.5-litre DOHC V6 is mated to a sport-tuned Continuously Variable Transmission (CVT) to provide high responsiveness and seamless, efficient shifting feel. The QX60 was the first Infiniti to utilize a fuel-efficient CVT. The CVT can mimic a step

transmission when the Sport mode of the Infiniti drive selector is engaged. The CVT design also features a wide gear ratio and low friction design.

The engine is rated at 265 horsepower @6,400 rpm and 248 lb-ft of torque @ 4,400 rpm. The design includes a variable induction control system to improve volumetric efficiency at low and middle speed ranges, while a simplified belt layout (versus previous designs) improves maintenance and fuel economy.

Fuel economy is estimated to be rated at 7.6 L/100km highway, 10.5 L/100km city and a real-world 9.2 L/100km combined for the FWD model and 7.8 L/100km highway, 10.9 L/100km city and a real-world 9.5 L/100km combined for the AWD model.

The 2014 QX60 is offered in two models– Infiniti QX60 FWD and AWD – manufactured in Smyrna, Tenn.
