FOR IMMEDIATE RELEASE

2024 INFINITI QX80 blends design and functionality for a premium driving experience

MISSISSAUGA, Ont. — The 2024 INFINITI QX80 seamlessly blends commanding design, a curated interior, impressive full-sized SUV capability and available advanced driver assistance technologies.

New to all 2024 INFINITI vehicles, lease or retail, sold in Canada, the QX80 includes an extended four-year complimentary INFINITI InTouch™ Services telematics Premium package. This upgrade, designed to elevate the INFINITI ownership experience, provides access to a variety of premium telematic features, including remote engine start from the MyINFINITI app, automatic collision notifications, emergency calls within the vehicle, vehicle health reports and more.

The QX80, and all other INFINITI models and grades, also include the added convenience of the [Oil Change & Tire Rotation Plan](#)¹. The integrated maintenance program enhances the ownership experience by including up to four years or 80,000 kilometers (whichever occurs first) of oil changes and tire rotations, building on INFINITI's top-rated customer service.

The 2024 INFINITI QX80 is available in four grade levels (LUXE 7-Passenger, LUXE 8-Passenger, ProACTIVE 7-Passenger and ProACTIVE 8-Passenger), each of which is equipped with INFINITI All-Mode® Four-Wheel Drive. The QX80 is on sale now with a starting MSRP² of \$85,595. (See full pricing details for all 2024 QX80 grades.)

Confident power and advanced suspension

The INFINITI QX80 offers a responsive, powerful driving experience, enabled by a standard direct-injection 5.6-liter V8 engine rated for 400 horsepower and 413 lb-ft of torque. The engine is paired with a 7-speed automatic transmission that features Downshift Rev Matching, plus Snow and Tow³ modes to further

optimize the powertrain. Standard INFINITI All-Mode 4WD continually adjusts power delivery between the front and rear axles, with Auto, 4-High and 4-Low modes.

The QX80's tough body-on-frame construction provides the ability to tow up to 8,500 pounds³. Self-leveling rear suspension is featured as standard on all grades, helping maintain an optimum ride height regardless of loading.

For even greater refinement of ride and handling, QX80 ProACTIVE includes standard Hydraulic Body Motion Control (HBMC) system suspension. The advanced HBMC helps create a smooth, flat ride by continuously monitoring body roll during cornering, then stiffening one side of QX80's suspension to counter the leaning effect. The system uses hydraulic cylinders connected to the shock absorbers, high-pressure hydraulic channels and two oil accumulators. The system results in a dramatically more stable and confident driving experience.

Considerable added peace of mind is included on every QX80 thanks to a standard suite of active safety technology including Forward Emergency Braking with Pedestrian Detection, Backup Collision Intervention, Blind Spot Warning, Lane Departure Warning and High Beam Assist. Standard driver-assistance technology includes Around View[®] Monitor with Moving Object Detection⁵ for confidence in low-speed maneuvering, along with a haptic steering wheel, which subtly provides alerts to the driver. Additional available features include Intelligent Cruise Control⁶ to ease highway driving and a Smart Rear View Mirror⁷ that helps provide a less obstructed view behind the vehicle.

Sizeable, luxuriously equipped cabin

The QX80's appeal continues with its spacious interior that seats either seven or eight passengers with a second-row bench seat. The second-row captain's chairs conveniently tip up for access to the third row. The SUV accommodates luggage and belongings with a generous 470.1 liters of storage space with all three rows upright, expanding to as much as 2,693.7 liters with the second and third rows folded⁸. A standard power liftgate simplifies access to the cargo area.

The INFINITI QX80 welcomes passengers with a luxurious cabin adorned by numerous high-quality details, including available Charcoal Burl interior trim and standard quilted, semi-aniline leather appointments.

Advanced connectivity at your fingertips

Like all INFINITI models, the QX80 features technology designed to make journeys more enjoyable and more connected for all occupants. A highlight of the dashboard is the standard INFINITI InTouch⁹ touchscreen infotainment system. It has a widescreen, high-definition 12.3-inch display and features navigation, a Wi-Fi hotspot, wireless Apple CarPlay[®] and USB-based Android Auto[™]. QX80 also features the convenience of Amazon Alexa[®], helping customers simplify and organize their lives. Alexa¹⁰ can play music, place calls, control smart home devices and more, with only voice commands.

Keeping phones, tablets or other devices charged is made convenient by two front USB ports, two second-row USB ports¹¹ and a standard wireless phone charging pad.

The QX80 provides a truly immersive audio experience with a standard 17-speaker Bose[®] premium sound system featuring two subwoofers.

The 2024 INFINITI QX80 is on sale now. For full details on the features included on each grade level, see the full specification sheet.

1. For information see <https://www.infiniti.ca/content/dam/Infiniti/Canada/Owners/extended-protection-plans/INFINITI-Complimentary-Oil-Change-Tire-Rotation-EN-final.pdf>
2. All prices are Manufacturer's Suggested Retail Price (MSRP). MSRP excludes \$2,495 destination and handling charge, tax, title, license [and options]. Retailer sets actual price.
3. Up to 8,500 lbs. maximum towing for 2024 INFINITI QX80. See INFINITI Towing Guide and Owner's Manual for additional information. Cargo and load capacity limited by weight and distribution. Always secure cargo.
4. INFINITI All-Mode 4x4 cannot prevent collisions or provide enhanced traction in all conditions. Always monitor traffic and weather conditions.
5. Around View Monitor with Moving Object Detection cannot eliminate blind spots and may not detect every object. Driver should always turn and check surroundings before driving. See Owner's Manual for safety information.

6. Intelligent Cruise Control uses limited braking and is not a collision avoidance or warning system. Driver should monitor traffic conditions and brake as needed to prevent collisions. See Owner's Manual for safety information.
7. Smart RearView Mirror may not detect every object and does not eliminate blind spots or warn of moving objects. See Owner's Manual for safety information.
8. Cargo and load capacity limited by weight and distribution. Always secure cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.
9. Available feature shown. Use feature only when safe and legal. Compatible device and service required. Subject to third party service availability.
10. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.
11. Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation.
