### 2025 INFINITI QX50 seamlessly blends advanced powertrain with intuitive technology and tailored design

**MISSISSAUGA, Ont.** – The 2025 INFINITI QX50 delights luxury crossover drivers with evocative design, a lengthy list of features that enable everyday convenience and the responsive power of a 2.0-liter Variable-Compression Turbocharged (VC-Turbo) engine. The 2025 QX50 is on sale now at INFINITI retailers nationwide with a starting MSRP<sup>1</sup> of CA\$51,745 (CA\$55,293 selling price<sup>2</sup>).

For the 2025 model year, QX50 is streamlined to three grades - PURE, SPORT and SENSORY - with standard Intelligent All-Wheel Drive.

#### **Design for visual appeal and function**

The 2025 INFINITI QX50 makes a splash with muscular proportions and sculpted bodywork. INFINITI's signature double-arch front grille and crescent-shaped rear roof pillar help the model stand out, while a sleek roofline and prominent, sharply defined lines along the bodysides add depth.

For buyers seeking an even more dynamic appearance, QX50 SPORT wears a sport front fascia with numerous exterior elements painted black: the roof rails, window trim, front grille, liftgate trim, exhaust tips, door handles and badges. The visual enhancements continue inside with enhanced ambient LED lighting and a Graphite headliner.

QX50 PURE wears 19-inch, silver-painted wheels, while QX50 SPORT has 20-inch dark-painted wheels and QX50 SENSORY has 20-inch silver-painted wheels. Depending on the trim level, clients can select from seven exterior colour choices: Hermosa Blue, Graphite Shadow, Slate Gray, Black Obsidian, Dynamic Sunstone Red, Lunar White and Radiant White. Inside the cabin, PURE grades feature dark aluminum trim and Graphite upholstery; QX50 SPORT has black aluminum accents and either Graphite or Monaco Red semi-aniline leather appointments; QX50 SENSORY grades feature natural maple wood trim and either Graphite or Pebble Gray semi-aniline leather appointments.

The well-appointed cabin is both beautiful to behold - with detailed, soft-touch materials throughout - and functional for passengers and cargo alike. The second-row slides, allowing for optimization between legroom or luggage room, and folds flat to create up to 1,842.3 litres (1,822.5 litres with panoramic moonroof) of cargo space. A standard power liftgate, with motion-activated function on SPORT and SENSORY grades, eases access to cargo.

#### **Advanced turbocharged engine for effortless power**

Backing up its energetic exterior appearance, QX50 delivers strong and responsive performance thanks to the world's first mass-produced Variable-Compression Turbocharged (VC-Turbo) engine<sup>3</sup>. The 2.0-liter engine delivers 268 horsepower and 280 lb-ft of torque, and is complemented by an XTRONIC transmission that features Downshift Rev Matching and standard paddle shifters to help deliver a more engaging driving experience.

INFINITI

With standard Intelligent All-Wheel Drive on all grades, the 2025 QX50 delivers a fuel economy of 10.8 L/100KM city and 8.3 L/100KM highway<sup>4</sup>.

### **Intuitively integrated technology**

As in all INFINITI vehicles, QX50 incorporates technologies that help make the journey more connected, more convenient and more entertaining. This includes standard INFINITI InTouch Services telematics with a four year Premium package, providing access to remote engine start, automatic collision notifications, emergency calling and more. The standard INFINITI InTouch infotainment system<sup>5</sup> has an 8-inch upper and 7-inch lower HD touch screens, with Android Auto™ and wireless Apple CarPlay®. A total of four USB ports and a wireless device charging pad are standard. A 12-speaker Bose® Premium Audio System is standard on QX50 SPORT, delivering richer and more lifelike audio.

QX50 also features an impressive array of standard safety and driver assistance technology, including Predictive Forward Collision Warning, Forward Emergency Braking with Pedestrian Detection, Blind Spot Warning and Intervention, Lane Departure Warning and Prevention, Rear Cross Traffic Alert, Rear Automatic Braking and High Beam Assist. ProPILOT Assist<sup>6</sup> is equipped to offer support in certain driving situations. The system can help the driver stay centered within their lane and assists with acceleration and braking.

QX50 also has numerous standard features that make every drive a little more luxurious, including acoustic front side window glass and active noise cancellation to keep the cabin more serene, heated front seats, steering wheel and outside mirrors, Remote Engine Start<sup>7</sup> for cold-weather driving and dual-zone automatic climate control to help drivers and passengers select their preferred temperatures. QX50 SPORT and SENSORY add a panoramic moonroof, Around View® Monitor with Moving Object Detection and other luxurious touches. QX50 SPORT adds to this with a redesigned sport front fascia and black exterior package.

For full details on the features included on each grade level, see the full specification sheet.
